

Tuxedo Distributors, LLC.

California Prop 65

Please note, you may see the following warning associated with the products we offer to dealer & distribution companies, as well as on other products we offer from other manufacturers.

This warning is required by the California Proposition 65 (Prop 65), which is meant to notify California residents of exposures to Prop 65 listed chemicals.

There are over 900+ chemicals listed on the Prop 65 list. The products we offer through our Dealer / Distribution channels may have traces of various chemicals that are on the list as part of the normal manufacturing processes or contained within the product materials themselves.

Prop 65 applies to any company operating in California, selling products in California, or manufacturing products that may be sold in or brought into California. It mandates that the State maintain and publish a list of chemicals known to cause cancer, birth defects, and/or other reproductive harm. The list, which is updated annually, includes hundreds of chemicals found in many everyday items. The purpose of Prop 65 is to inform the public about exposure to these chemicals.

Prop 65 does not ban the sale of products containing these chemicals but instead requires warnings on any product and/or product packaging. The Prop 65 warning does not mean that a product is in violation of any product safety standards or requirements. In fact, the California government has clarified that a Prop 65 warning is not the same as a regulatory decision that a product is unsafe or unsafe. Many of these chemicals have been used in everyday products for years without documented harm.

For more information, go to: <https://oehha.ca.gov/proposition-65/proposition-65-faqs>

A Prop 65 warning means that a company has either (A) evaluated the exposure and has concluded that it exceeds the no significant risk level; or (B) has chosen to provide a warning based on its best understanding about the presence of a listed chemical without attempting to evaluate the exposure.

What does the Prop 65 Warning mean?

This warning does not necessarily mean that the products we offer will cause cancer or reproductive harm nor does it mean our product is in violation of any Federal or State product-safety standards or requirements. Think of Proposition 65 more as a right to know law than a pure product safety law.

Why does the Tuxedo Distributors, LLC include the Prop 65 Warning?

Although Proposition 65 only applies to companies that operate, manufacture or sell products in California, Tuxedo offered products are sold throughout the world. To determine which products are only available in California would be extremely difficult and costly. For most cases, exposure from products that Tuxedo offers is negligible or well within the no significant risk range, however, out of an abundance of caution, Tuxedo has elected to provide the Prop 65 warnings to provide consumers with information so that they can make informed decisions about the products they buy and use.

General Location of Prop 65 Warning Labels:

- ❖ Automotive Lifts:
 - Applied to end of lift package or to the outside of crate or cardboard packaging
