

TP11DX-24HTEXTKIT

TP11KC-DX 'Two Foot' Height Extension Kit

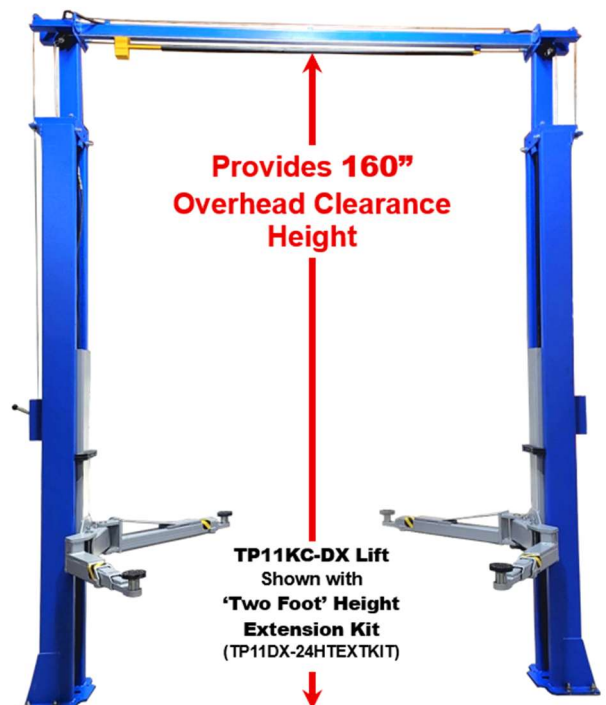

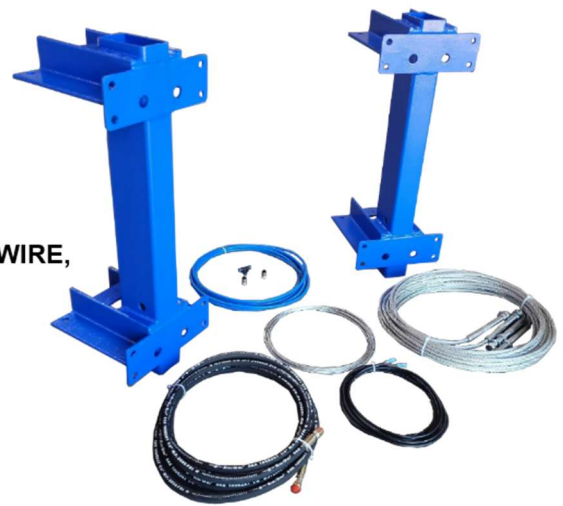

Designed exclusively for the TP11KC-DX lift, the TP11KC-DX 'Two Foot' Height Extension Kit adds 24" to the lift columns, increasing the overhead clearance height to 160" providing additional clearance for taller vehicles for expanded service requirements. The TP11DX-24HTEXTKIT includes 24" column extensions, extended-length hydraulic hose, steel cables, latch wire, return line tubing, limit switch cable, and air fittings. Overhead Beam assembly, mounting hardware and pulleys are reused from the TP11KC-DX lift.
